

## sCELL-H2000 (2x40W) DATASHEET

# sCELL-H2000

## LTE Integrated eNodeB

2\*40W with MIMO

Passive Cooling IP65

192 Concurrent Users

384 RRC Users

The sCELL-H2000 from SUNWAVE is an advanced outdoor LTE compact product that operates in FDD mode. This eNB provides users with high-speed broadband wireless access to the Internet using 2x40W output power (2x2 MIMO with 40W output each channel). This eNodeB can operate in 5, 10, 15 or 20 MHz bandwidth, supporting 192 concurrent users and 384 RRC users.

## sCELL-H2000 (2x40W) DATASHEET

## KEY FEATURES

- Standard LTE FDD Band 3/Band 5 or customized
- Complies with 3GPP Release 13 standard
- Supports 5/10/15/20 MHz bandwidth
- GUI-based local and remote Web management
- TR069 network management interface support
- External high-gain antenna
- Peak rate (per unit): DL 145 Mbps, UL 45 Mbps @ 20 MHz bandwidth
- 192 concurrent users per eNodeB, 384 RRC users per eNodeB
- Passive Cooling IP65

## HARDWARE SPECIFICATIONS

<b>LTE Mode</b>	FDD
<b>Frequency Bands</b>	Band 3/Band 5 or customized
<b>Channel Bandwidth</b>	5 MHz, 10 MHz, 15 MHz, 20 MHz
<b>Max Output Power</b>	46dBm / channel
<b>Power Supply</b>	-48V DC or 220V AC
<b>Power Consumption</b>	≤ 350W
<b>Receive Sensitivity</b>	< -101.5dBm
<b>Synchronization</b>	GPS, 1588 (optional)
<b>Interfaces</b>	One optical (SFP) and one RJ-45 Ethernet interface
<b>MIMO</b>	2 x 2
<b>Installation</b>	Pole or wall mount
<b>Antenna Type</b>	External high-gain antenna compatible with eNodeB N Female interface
<b>Dimensions (HxWxD)</b>	420 x 450 x 164.5 mm   16.5 x 17.7 x 6.48 in
<b>Weight</b>	< 22 kg   31.1 lbs (exclude accessories)

## SOFTWARE SPECIFICATIONS

<b>LTE Standard</b>	3GPP Release 13
<b>User Capacity</b>	192 concurrent users, 384 RRC users
<b>Modulation</b>	QPSK, 16QAM, 64QAM
<b>Network Management</b>	TR069
<b>Maintenance</b>	Remote or local maintenance Online status management Performance statistics Fault management Local or remote software upgrade

## sCELL-H2000 (2x40W) DATASHEET

	Logging Connectivity diagnosis Automatic start and configuration Alarm reporting User information tracing Signaling trace
--	--

ENVIRONMENTAL SPECIFICATIONS	
<b>Operating Temperature</b>	-40 °C ~ +55 °C   -40 °F ~ +131 °F
<b>Storage Temperature</b>	-40 °C ~ +75 °C   -40 °F ~ +158 °F
<b>Humidity</b>	5% ~ 95%
<b>Ingress Protection Rating</b>	IP65
<b>Heat Dissipation</b>	Passive Cooling

Note: Features may vary based on model or region.

### TYPICAL APPLICATION

In rural and suburban areas, the wireless network coverage is relatively wide, but the users are less fixed than the fixed ones. By deploying LTE integrated high-power base stations in a town or natural village, the signal coverage in a small area can be achieved, reaching low Investment in rural 4G wireless access.

In order to solve the indoor and outdoor coverage problems of large and medium-sized scenes in Hunan Province, Hunan Mobile purchases our integrated high-power base stations to increase the breadth and depth of network coverage, which greatly improves network quality and service quality.

**Rural**

**Road**

**Industrial Campus**

**Capacity Compensation**
